

Snap-on 1873 D

Snap-on 1873 D is a side flexing snap-on chain. It is designed with plastic flights assembled on a steel roller chain with extended pins.

It has a steel 0.75" pitch roller chain with overlapping plastic top plates. Top plate thickness 4.0 mm. It runs on standard ANSI no. 60 sprockets.

Applications include vertical conveying of containers, newspapers and cartons. This two part design reduces noise.

Specifications

Physical Properties	Metric	Inch
Width	82.6 mm	3.25 in.
Nominal Tensile Strength	4,000 N	900 lbf
Roller Chain Material	Carbon Steel or Stainless Steel	
Colors	Tan	
Packaging	10 ft. standard, any Length available
